Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Weissner, Sartain et al., Haynes, and Meyer, Jr. disclose other mesh layer type pool cover but lack the limitations as indicated above. Osborn and Foster disclose other processes of producing a mesh product but lack the limitations as indicated above.
